## Senate Reopens Conference On Air Probe

### FIND BALANCE WILL PERMIT NEW HEARINGS

Connecticut Representative Declares Committee Was Deceived

DENY COERCION CHARGES

Propose to Resume Inquiry Into Aircraft Controversy

By Associated Press  
Washington, D. C.—The house aircraft committee was called in executive session again Tuesday to consider further the question whether it should reopen its inquiry into the aircraft controversy or adhere to its sudden decision of Saturday to terminate the investigation.

A resolution proposed to reopen the hearings Wednesday which was offered by Representative Prall, Democrat, New York, and debated for two hours at the executive session Monday, was still pending Tuesday. The discussion Monday of reopening the hearings came as unexpectedly as the decision taken Saturday to end the inquiry.

Action on the resolution of Representative Prall, as deferred until Tuesday, it was explained, to permit a more definite check on the unexpected balance of the committee funds. Representative Perkins, Republican, New Jersey, the committee examiner, stated after Monday's meeting that several committee members had voted to end the hearings with the understanding that only \$700 of the committee's \$25,000 appropriation remained, whereas a checkup showed a balance of \$2,250.

CHARGES DECEIT  
Representative O'Sullivan of Connecticut, a Democratic member declared before the meeting that the committee had been "deceived" on the question of funds in voting to end the hearings and asserted there was ample balance to carry these out as planned.

Flat denial of reports that either he or any other member of the committee had been "coerced" to end the inquiry by "outside pressure" was made Monday by Representative Perkins.

Meanwhile, the question whether Brigadier General Mitchell assistant army air chief, or some other officer will be appointed to that post when his term expires on Mar. 26, is one on which Secretary Weeks is not likely to reach a decision for some days owing chiefly to his preoccupation with the Chicago Sanitary district water withdrawal matter.

### PROBE M'CLINTOCK WILL IN SHEPHERD INQUIRIES

By Associated Press  
Chicago.—The will of William McClinton, millionaire orphan, which bequeathed an \$8,000 annuity to Miss Isabelle Pope, his fiancée, and more than \$1,000,000 to William D. Shoppe, his foster father, will be read to the coroner's jury investigating McClinton's death. Harry Olson, chief justice of the municipal court, instigator of the investigation, has declared.

Whatever information there is obtainable about the circumstances of its origin will be the subject of testimony, he said. Litigation affecting the will, which previously interfered with presentation of evidence regarding it, will be disregarded from now on, Judge Olson said.

Several witnesses, including Mrs. Shepherd, who was a guardian of McClinton, will be questioned when the inquest is resumed Wednesday, Judge Olson said.

### WORKERS SURVIVE WHEN BLAST BLOWS ROOF FROM PLANT

Superior — George Murray and Carl Malyszkeski, both of Washburn, are recovering at a Washburn hospital after a miraculous escape when the useless powder dryer house Dupont plant was blown from the roof.

The roof was blown 150 feet from the rest of the building and the front of the building also was blown away.

Murray and Malyszkeski were picked up but slightly injured 150 feet from the building on the other side of a railroad track and do not know whether they ran or whether they were blown there.

### DEATH CLAIMS NOTED FIGURE AMONG SWEDES

Hjalmar Branting, First Socialist Premier of Sweden, Passes

Stockholm — Hjalmar Branting, former Premier, died shortly after noon Tuesday.

Hjalmar Branting, the first Socialist prime minister in the history of Sweden, and one of the outstanding public men of that country in his time, was regarded by the Swedish people as their country's most prominent international politician.

Devoting virtually his entire life to the amelioration of the conditions of the working classes and the attainment of universal peace by universal understanding, Dr. Branting worked unceasingly and with a fine optimism for the realization of his ideals. He spared himself no personal sacrifice, and even sat in prison for his championship of the cause of those whose cast and culture were inferior to his own.

During the Paris peace conference Dr. Branting was active as an advocate of peace on the lines of Woodrow Wilson's fourteen points. As Sweden's delegate to the league of nations he took a prominent part in its proceedings with special interest in the movement for disarmament. He was chairman of the assembly committee on disarmament at the 1920 and 1921 sessions and also was appointed a member of the league council's commission on armaments.

Dr. Branting, with Christian L. Lang of Norway, secretary of the International Peace Union, was awarded the Nobel peace prize for 1921.

Born at Stockholm, November 23, 1860, Dr. Branting was the son of Professor L. G. Branting. He was educated at Upsala university, studying natural sciences.

A trip abroad prior to 1882 brought the young scientist into touch with Socialism and when he returned he immediately ran into politics through the journalistic channel, becoming an editor on the Tiden, a Social Democratic newspaper. He went over to the Social Democrats when it was founded in 1889 and a year later became editor. In that position he carried on his activities in behalf of the working classes and peace.

The bill, Mr. Ingalls said, now is looking for a sponsor.

Michael O'Brien, executive counsel who represented Governor J. J. Blaine at the public hearing on the bill, virtually disclaimed it as "an administration measure," the assemblyman stated. "He intimated the bill was the product of the tax commission stating that it had the endorsement and approval of the members of the tax commission. The statement of Assemblyman Ingalls says:

"On the heels of this statement from the governor's spokesman, comes the startling information from Judge Charles D. Koss, a member of the tax

### ORDER FAVORABLE REPORT ON WARREN

Senate Leaders Will Press for Early Action to Force Appointment

By Associated Press  
Washington, D. C.—A favorable report on the nomination of Charles H. Warren to be attorney general was ordered Tuesday by the Senate judiciary committee.

Administration leaders will press for early action on the nomination in the belief that they can muster sufficient votes for confirmation at this session of the senate.

The vote was reported unofficially as 9 to 4. The nomination had been before the committee for six weeks with opposition centered largely around Mr. Warren's testimony before the "sugar" trust investigation.

Three Democrats, Ashurst, Arizona, Reed, Missouri, and Walsh, Montana, and one Republican, Arkansas, voted against Mr. Warren. Senator Caraway, Democrat, Arkansas, was present but withheld his vote. Senators Norris, Republican, Nebraska, and Stanley, Democrat, Kentucky, were absent.

### CRACKSMEN ROB THEATRE SECOND TIME IN YEAR

By Associated Press  
Superior.—Cracksmen Monday night broke into Palace Theatre here, rushed a safe and escaped with \$500 in cash. The robbery was the second at the theatre in less than a year.

The letter, after referring to the Morris bill reducing state income taxes 25 per cent, declared that increase in income taxes during the years 1917 to 1921, was less than \$2,000,000 as compared with an increase of more than \$45,000,000 on real and personal property. From 1920 to 1923 the latter states, real and personal property taxes payable into the state treasury have been reduced almost \$8,000,000.

"The income taxes were paid out of actual cash income received," the governor said, "the real and personal property taxes were paid whether there was any earning or not."

"Therefore why reduce income taxes? Why not reduce real and personal property taxes 25 per cent and increase income taxes such an amount as may be necessary to take care of the needs of the towns, cities villages and counties?"

### FILE GOVERNMENT MOTION FOR TEAPOT CONTINUANCE

Cheyenne, Wyo.—A motion by the government for continuance of the Teapot Dome lease annulment trial set for Mar. 4 was filed in the federal court for Wyoming late Monday by Albert D. Walton, United States district attorney. The motion is signed by Alton Pomoren and Owen D. Roberts, special oil counsel for the government. Hearing on the application was set for Thursday.

### HEAVY EARTHSHOCKS SEND ALASKANS INTO STREET FOR SAFETY

Anchorage, Alaska.—Towns along 483 miles of the Alaska railroad were rocked Monday by one of the most severe earthquakes ever experienced by Alaskan pioneers, according to reports received Monday night and Tuesday. Chimneys were wrecked, water pipes broken and the Seward to Valdez cable cut in two by the tremors.

Two distinct shocks were felt here, the second being the hardest. They were accompanied by deep rumbles. Dishes were broken in homes and patients in the hospital thrown from their beds. The public school was dismissed.

Clocks were stopped at Currier, near here. At Seward, 114 miles southeast of Anchorage at one terminus of the Alaska railroad, chimneys of residences were rocked and water pipes broken. Residents scurried into the streets for safety.

### BLAINE WOULD REDUCE BURDENS ON PROPERTY

By Associated Press  
Madison.—Property taxes instead of income taxes should be reduced to lighten the burdens on those least able to pay, Governor Blaine stated in a letter Chairman O. H. Johnson of the state senate committee on corporations and taxation, made public by the executive Tuesday.

The letter, after referring to the Morris bill reducing state income taxes 25 per cent, declared that increase in income taxes during the years 1917 to 1921, was less than \$2,000,000 as compared with an increase of more than \$45,000,000 on real and personal property. From 1920 to 1923 the latter states, real and personal property taxes payable into the state treasury have been reduced almost \$8,000,000.

### DENY RUMORS OF GLORIA'S DEATH

Report Is Spread in New York by Man Giving False Name

By Associated Press  
New York.—An erroneous report that Gloria Swanson, motion picture actress, had died in Paris Tuesday, was in circulation in New York Tuesday morning. A man representing himself as the secretary of Adolph Zukor of the Famous Players Lasky corporation, informed the Associated Press that a cablegram had been received announcing her death at noon.

Eugene Zukor, treasurer of the corporation, however, denied the story and said that the actress was improving.

The Famous Players Lasky corporation said it would immediately start an investigation to determine if possible who gave out the erroneous information.

Paris — Gloria Swanson, the film star, who underwent an operation here last week, passed a better night, her husband told friends Tuesday afternoon. He added, however, that the doctors did not yet consider her out of danger. Her husband, the Marquis De La Falaise de La Cour, is in constant attendance at her bedside.

### BANKERS NAME ELMWOOD MEMBER AS PRESIDENT

By Associated Press  
Chippewa Falls.—With a new attendance record set as the names of the registration books mounted past the 500 mark, the twenty first annual convention of Group 1, Wisconsin Bankers association, ended its active business Monday by electing E. A. Springer of Elmwood, president.

Other officers elected were H. C. Harding, Oconto, vice president; John Bauman, Eau Claire, secretary-treasurer; A. H. Miller, Cumberland, and J. M. Crawford, Superior, were elected to the executive committee. Miles H. McNally, New Richmond, delegate to the state convention; Calvin F. Schwonker, Chippewa Falls, alternate delegate.

### CONFEREES AGREE ON POSTAL RAISE BILLS

By Associated Press  
Washington, D. C.—A postal pay and rate increase bill substantially the form as that passed by the house was agreed to Tuesday by conferees on the senate and house measures.

The only important modification in the house was made in second class rates the conferees accepting some of the lower rates in this class carried in the senate bill.

## Surplus In Treasury Makes Tax Cut Likely

Chairman Green of House Ways and Means Committee Discloses Facts Despite Administration

BY DAVID LAWRENCE  
Copyright 1925 by the Post Pub. Co.  
Washington, D. C.—Chairman Green of the house ways and means committee has let the cat out of the bag. He has revealed the fact that a considerable surplus over expenditures will be available this year and that another downward revision in taxes is possible.

The administration did not intend to have that disclosed now. For it would diminish revenues only about \$100,000,000. This is far below the estimated loss in revenue because receipts were larger. Now it develops that the \$68,000,000 surplus which the president indicated in his budget message would be available will be increased so that about \$100,000,000 could really be refunded to the taxpayer, thus granting another 25 per cent reduction. If this is the situation in February, it may well be asked what will be the situation on Mar. 30 or thereafter when the first payments on 1924 taxes will have been made and some estimate can be obtained on the true size of the surplus.

Mr. Green points out that the 25 per cent horizontal reduction really diminished revenues only about \$100,000,000. This is far below the estimated loss in revenue because receipts were larger. Now it develops that the \$68,000,000 surplus which the president indicated in his budget message would be available will be increased so that about \$100,000,000 could really be refunded to the taxpayer, thus granting another 25 per cent reduction. If this is the situation in February, it may well be asked what will be the situation on Mar. 30 or thereafter when the first payments on 1924 taxes will have been made and some estimate can be obtained on the true size of the surplus.

### OPPOSE EXTRA SESSION

The treasury department has taken the position that no extra session was necessary because it would take until December to make up a new tax plan. Also it was said that the \$68,000,000 surplus afforded too narrow a margin on which to base a reduction this year. Every day and every week the treasury department figures have as usual been too conservative, Chairman Green thinks so.

But Mr. Green disclosed another and perhaps more controlling reason for the postponement of tax revision. He says the next tax cut will be in the higher surtax rates. The treasury department has been sticking to the position that it would immediately start an investigation to determine if possible who gave out the erroneous information.

Paris — Gloria Swanson, the film star, who underwent an operation here last week, passed a better night, her husband told friends Tuesday afternoon. He added, however, that the doctors did not yet consider her out of danger. Her husband, the Marquis De La Falaise de La Cour, is in constant attendance at her bedside.

## EBERT BETTER AFTER HASTY USE OF KNIFE

Surgeons Order Immediate Operation on President of Germany

Berlin.—An official bulletin issued at 12:45 Tuesday afternoon read: "President Ebert's condition is satisfactory. The fever, which rose very high during the night, has receded. His consciousness is expected to take three or four weeks."

EBERT

The president had not been in good health for the last two weeks, being confined to his bed most of the time. When Professor Bier, after an examination of the patient Monday night, ordered an immediate operation, grave apprehension was felt over the outcome by many, inasmuch as the president's nervous system had been badly shaken by his disappointment over the verdict in the Maddeburg libel suit in which he was exonerated by the judge, and by his grief over the continuing personal attacks against him in connection with the "Boller" loan affair, even though it was shown that he had not acted incorrectly.

The surgeons gave no details of the operation beyond stating that Herr Ebert was under the anesthetic for an hour and that he has "passed a satisfactory night."

## SENATE SPLIT ON ATTITUDE TOWARDS PROM

Senator Max Heck Leads Fight Against Using Building for Dances

FIND STAUNCH DEFENDERS  
Cadet Corps and Rotarians Gain Permission After Long Debate

By Associated Press  
Madison.—Permission to use the state capitol for promenade and balls, other than official or legislative functions probably will be denied in the future, as a result of statements made on the floor of the senate Tuesday, in connection with the holding of the recent junior prom of the University of Wisconsin.

A large number of senators went on record as favoring a resolution which would bar the use of the capitol to all such organizations seeking permission after this year.

In the course of the debate on the question of granting permission to the Cadet corps of the state university for a military ball half a dozen senators claimed the prom had been improperly conducted and that hoodlums had been allowed to enter the building, and these had brought disrespect to the function by the drinking of whiskey and unseemly conduct.

Other senators warmly defended the university and shifted the blame for "ungentlemanly and unattractive" conduct to the shoulders of non-students of the university attending the function.

Senator Max Heck led the fight against granting permission to any organization to use the building for dance purposes where admission is charged, asserted the "president of the university" had miserably failed in his responsibility after accepting by him a copy of a legislative resolution granting permission to use the parlors and rotunda of the senate house for the purpose of the junior prom.

### SAW GIRLS SMOKING

Senator Herman Lange of Eau Claire said he had seen girls smoking cigarettes and boys smoking out whisky at the junior prom.

Senator A. E. Garey, Edgerton, challenged the statement of the senator from Eau Claire and said he had seen nothing out of the way and discreet should not be brought on the university for disturbances caused by a few persons who might not have conducted themselves properly.

"The University of Wisconsin has good young men and as fine young women as any university in the country," Senator Garey asserted.

Senator C. B. Casperson, Frederic and Harry Southoff earnestly defended the state university and the young men and women who attended the junior prom. The latter attacked what he termed a "holier than thou" attitude of certain senators whose names he did not mention. He characterized the attack on the junior prom as a clamoring for notoriety of the "cheap" variety.

"I am thankful that I am still young enough to see the good in any kind of amusement. I attended the prom and saw nothing out of the way. I was disgusted with this sort of debate," Senator Southoff said.

In the end the senate voted 23 to 9, granting permission to the cadet corps and to Rotarians to use the capitol for social purposes, with the restriction that the legislative rooms be excepted.

### DRIVER OF DEATH CAR BETWEEN LIFE, DEATH

By Associated Press  
Kenosha.—Louis Norbut, driver of the automobile which was hit by a Northshore electric train near Kenosha Monday resulting in the instant death of four Kenosha people, was still hovering between life and death Tuesday morning at the Kenosha hospital. He has never recovered consciousness, having fractured skull. No hopes are held out for his recovery.

Coroner Joseph Friend is making an investigation into the cause of the accident, having called an inquest for Thursday.

### KENTUCKY SENATOR IS INJURED IN SMASHUP

By Associated Press  
Washington, D. C.—Senator A. O. Stanley of Kentucky was severely but not critically injured Tuesday in an automobile accident here.

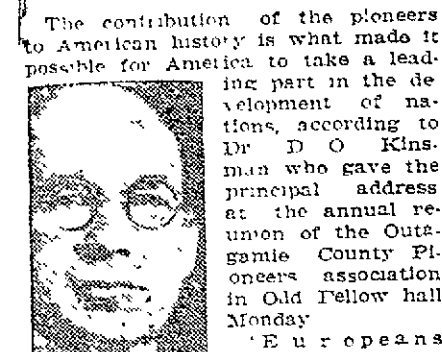

The senator was taken to an emergency hospital where it was said that in addition to bruises, he appeared to have suffered a fractured rib.

Physicians who made the examination said there were no indications of serious consequences, and predicted an early recovery barring complications.

# WHOLE HISTORY OF AMERICA WRITTEN IN THIS COUNTY

Dr. Kinsman Traces Nation's Development in Address to Pioneers

KINSMAN

The contribution of the pioneers to American history is what made it possible for America to take a leading part in the development of nations, according to Dr. J. O. Kinsman who gave the principal address at the annual reunion of the Outagamie County Pioneer Association in Old Yellow hall Monday.

Other addresses were made by Dr. A. W. Kinsman, Joseph Koffend, Sr., A. W. Priest, W. E. Smith, F. E. Harriman and Attorney J. L. Johns. The program of addresses and entertainment was held in the afternoon following a basket luncheon attended by a large number of members.

Prayer was offered by the Rev. Samuel Cookson of Lawrence college. Lester Balliet sang "Ferrara" and "Tommy Lad." Miss Rose Ryan rendered a piano selection, and a piano duet was played by Dorothy Kubitz and Dorothy Warming. Miss Katherine Pratt entertained the pioneers with impersonations of a boy Sunday school, a boy leaving his first composition, and a person.

## REAL HISTORY HERE

One does not need to go outside the county and state for interesting facts of history, Dr. Kinsman declared. People of New England stock make much of the landing of the Pilgrim Fathers at Plymouth Rock, but 14 years after that historic event a white man set his foot on Wisconsin soil at Green Bay. The history of this part of the Fox river valley has been in the making since 1664.

## PIONEER AND SETTLER

Dr. Kinsman drew a line of distinction between a "pioneer" and an "old settler" and said that a pioneer is not necessarily an old settler nor an old settler always a pioneer. The pioneer spirit is manifested in the daring determination of the early frontiersmen who braved the wilderness, of the immigrants who struck out for America the land of opportunity and the old settlers who sought out new fields of endeavor even in this county and helped make it what it is.

Dr. Koffend, Dr. Kinsman and Mr. Priest gave some of their early reminiscences. Mr. Priest is one of the oldest members of the association in point of years spent in the county. He has lived here 76 years. Mr. Koffend came to this city with his parents in 1857. Dr. Kinsman, while not numbered among the earliest settlers of the association told of the pioneer life of his family in Dane County as early as 1844. W. E. Smith said his grandmother was the first school teacher in the town of Dale and that this people settled in this county as early as 1846. Attorney Johns urged the association to make stenographic reports of reminiscences given at each annual meeting and preserve them as historical records for the interest of future generations.

Secretary F. E. Harriman made an appeal for more members, maintaining that it was the duty of children of the pioneers to keep the tradition intact in later years. The organization recently decided to declare eligible to membership any person over 18 years of age who has lived in the county more than 10 years.

A special vote of condolence was tendered the families of the late Judge John Betsworth and Thomas R. Reid, former members, who died within the past year.

# High School Juniors Do Well In Class Play

"A Successful Calamity" replete with clever lines interpreted by an excellent cast of characters, was the annual offering of the Junior class of Appleton high school, presented Monday night in Fischer Appleton theatre under the direction of Miss Ruth McKennan. The play was in three acts, played on one elaborate set. Direction and staging were excellent and members of the cast were well chosen.

The leads were well played by Carl Schreiber, as Harry Wilton, a tired business man who desired to spend an evening at home, and Miss Charlotte Schreiber as Emma, his pleasure-loving wife. Wilton tells his family that he is ruined to test their affection for him and then, after an evening at home enjoyed with his wife and children, he attends a prize fight. Upon returning he takes a sleeping powder to induce sleep and by morning he is forgotten that he has pretended to be ruined. The calamity, however, turns out to be successful and all ends happily.

Miss Josephine Buchanan was nicely cast for the part of Wilton's daughter, and Eddie, his son, was well played by John Catlin. Clair Miller as George Struthers, the unsuccessful suitor, and John Powell as Clarence Rivers, his successful rival, played opposite Miss Buchanan, forming an amusing triangle. Miss Louise Thompson was lovely as Julia Partington, Eddie's fiancee.

Connors, the butler, an important part, was played by Herman Schweser. Andrew Montgomery took the part of Pietro Rafaleo, the portrait painter. Robert Wolf was Dr. Brodie, Douglas Kaufman was John Belden Wilton's business partner, and Miss Lella Boettcher was Albertine, the French maid.

It would be difficult to select the parts which were best played, as Miss Boettcher as the excitable French maid and Andrew Montgomery as Pietro Rafaleo did excellent character work. John Powell made a debonair suitor and kept his audience laughing.

Music between acts was furnished by the high school orchestra. Other Juniors connected with the play were advertising manager, M. L. Lillie; ticket chairman, Edward Blesman; and Ione Stearns, stage manager. Deryall Myse property manager. Florence Hitchler. Miss Dorothy Adst of the class of 1924 assisted with the make up.

## ERB GERMAN CONTESTS WILL BE HELD IN MAY

Dr. G. C. Cast of the German Department of Lawrence college has made the preliminary announcement for competition for the Herman Erb prizes, founded by the late Herman Erb of Appleton. # SCORE SUCCESS IN HOME TALENT PLAY

The three act comedy drama, "All a Mistake," which was presented by St. Aloisius Young Men's society of St. Joseph church, Sunday and Monday in St. Joseph hall, was well attended at each performance. A special matinee was given Sunday afternoon for the children. The proceeds of the play will go into the benefit fund for the sisters' home.

Miss Gertrude Shilling, who played the part of Nellie, the wife of Lieut. George Richmond, and Mr. J. Mauer, who plays the part of Nellie Huntington are exceptionally good and evoked much laughter. Others in the cast are Capt. Obadiah Skinner, Alex. Tapp, Lieut. George Richmond, Walter Schommisch, Richard Hamilton, a country gentleman, Robert Kranhold, Ferdinand Lighththead, a neighbor, Harold Hassman; Cornelia (Nellie) Skinner, Obadiah's sister Miss Gladys Kranhold, Nellie McIntyre, a servant, Miss Margaret Casperson.

The play was directed by Gustave J. Keller, Jr., with John Hollenbach, stage manager, and Raymond P. Dohr, business manager. The dramatic committee of the society consists of John Heinzkill, chairman; George Theis, Oscar Griesbach and George Magnus. Music was furnished by Valley Garden Entertainers.

# Coolidge Remedies for Excessive Taxes

PRESIDENT COOLIDGE has performed a striking service to the public in emphasizing the danger that lies ahead of us all in the constantly increasing burdens of taxation.

Every merchant, manufacturer, banker, farmer and transportation company is still struggling under the weight of excessive taxes, but probably no class has been more seriously affected than the railroad companies.

In the last decade taxes have grown by leaps and bounds.

A MILLION DOLLARS A DAY. That is the railroad tax bill. The Federal Government and most State Governments are meeting this dangerous condition with courage and efficiency. The greater part of taxes is due to local tax levies.

Local governments spend more of the people's money than do the State and Federal Governments combined.

If local authorities fully appreciate this situation, we believe they will adopt COOLIDGE REMEDIES to bring about economies and reduce tax levies.

The tax burden on the cost of transportation is enormous. For the last five years railway taxes have exceeded total cash dividends paid to the owners.

The taxes of the Chicago and North Western Railway System exceed all the taxes of all the railroads in the Dominion of Canada by 18%, notwithstanding the fact that the mileage of the Canadian Railroads is nearly four times greater than the mileage of the Chicago and North Western Railway System.

We publish these facts believing that full appreciation of the situation will meet with cooperative efforts on the part of all local authorities to stop avoidable expenditure of public funds until such time as the tax burden has become adjusted to the strength of the economic structure of the country.

"The public revenues are a portion that each citizen gives of his property in order to secure or enjoy the remainder."

### HUBERMAN, ALONE THRILLS AUDIENCE WITH HIS VIOLIN

Mackenzie Unable to Be Here for Community Artist Series Concert

Those who listened to the violin recital of Bronislaw Huberman in Lawrence Memorial chapel Monday evening were accorded an entertainment that is exceedingly rare in this locality.

The masterful technique of the performer and the quality of the interpretation given each number of the program classed this recital of the Community Artist series as one of the best of the season. This is borne out by the enthusiastic reception given it by the audience.

Owing to the fact that Tandy MacKenzie, the Hawaiian tenor who was to appear with the violinist in a joint recital, was detained by illness, the program diverged somewhat from the one scheduled and was made a little heavier. The news of Mr. Mackenzie's absence might have had a depressing effect on the size of the crowd which was somewhat smaller than that usually seen at the Community Artist series. Nevertheless, the prolonged applause of the encore-hungry audience attested to the fact that it was well satisfied with the program even with the other part canceled. Yet there were no encore numbers rendered.

The principal selection was without doubt the celebrated Kreutzer Sonata from Beethoven's 47th opus, which as the initial number was well chosen to place the audience in an appreciative mood. None the less pleasing, however, was the Concerto of Mendelssohn, Opus 64, beginning with its impassioned movement, subsiding into the andante and then shifting to the vivacious notes of the allegretto. The accompaniment to this number by Siegfried Schultze, pianist, was especially gratifying.

After the second part of the violin recital, the pianist entertained the audience with two excellent solos. The first was the celebrated Nocturne in C minor of Chopin's, and the second a prelude "La De ga Ruff," the work of a young Bulgarian composer, which afforded a remarkable opportunity for the pianist's skill.

The concluding part of the violin recital contained three choice selections of a lighter type. "Albumblatt," by Wagner Wilhelm, like the theme it suggests, The Leaf of an Album, seemed to call forth the most tender memories from the coveywebbed past. The sprightly cadences of La Capricieuse by Elgar, were equally apt, to say the least. The final number consisted of two Spanish dances by Sarasate. They were marked by a display of contrast, the first by a slow movement expressive of the Andalusian, the second by the wild gusto suggestive of the highlands of Navarre.

### HOUSEWIVES ON WAR PATH AGAINST CATS

Stray Felines Get on People's Nerves With Their Nightly Concerts

Residents in the neighborhood of W. Eighth and S. State streets can have everything from jazz to classical entertainment late at night and much "static" thrown in, and they don't have to turn on the phonograph or tune in on a distant station either! All the stray cats of the west end of town seem to congregate on the back fences in that neighborhood for a nightly convention and they usually offer a varied "musical" program, and several selections not included in any kind of a program, according to complaints of tired residents of the district. It is possible that the nightly wailing could be tolerated if it were not for other faults of this army of cats. Fastidious housewives are greatly aroused by the lean, hungry strays, ownership unknown, if any, which stroll leisurely over their nicely swept back porches, tripping over the pots and pans and dragging food stuffs, over the floors and through the yards.

One housewife of that neighborhood endeavored to buy poison which would "kill a cat but not a dog" recently saying, that while she believed in epts, stray cats which aer bold enough to enter the kitchen for food, should be killed. When she discovered that no poison made would accomplish one end and not the other, she left the store determined to call the police to "clean up" the neighborhood for her, and her neighbors are hoping that local officers are oiling up their firearms in preparation for the cat slaughter.

complete records of payments therefor should file the returns directly with the commissioner. When both main and branch offices have adequate records, the returns should be filed by the main office.

The requirement is not limited to periodical payments, but a single payment of \$1,000 or more must be reported. Real estate agents are required to report payments to landlords. Fraternal organizations and associations are required to report payments to officers. Banks are required to report interest paid or credited to a depositor, if the total during the year equalled or exceeded \$1,000.

Forms for filing information returns may be obtained at offices of collectors of internal revenue. The collectors, however, are not authorized to receive these returns, which should be addressed to the Commissioner of Internal Revenue, Sorting Section, Washington, D. C.

### IDEAL COMMUNITY POSSESSES SOUL, LIONS ARE TOLD

Corbett Tells Luncheon Club of Work of Chamber of Commerce

No matter how great a city is as an industrial center, or a place in which to live unless it possesses social, educational and spiritual advantages which go to make up the "soul of a city," Hugh G. Corbett, managing secretary of Appleton Chamber of Commerce told Appleton Lions club at its weekly luncheon in the Conway hotel Monday noon. Mr. Corbett spoke on the work of the chamber of commerce.

Mr. Corbett described the work of the chamber of commerce as an effort to make a better place in which to live and in which to make a living. He said all the civic organizations are working toward the same end and it is largely the province of the chamber to give publicity to what is being done.

Boasting a city and boasting about a city were contrasted by the speaker. He urged that every citizen become a booster but he warned against the booster, urging boosters to stick to facts and not permit their enthusiasm to run away with the truth.

The five things which go to make up a city are its retail activity, industrial, agricultural and social activities, he said. No city is complete if it lacks any of these and he pointed out how the ideal city, the city in which people want to live, can have them in the proper proportion.

Summing up a fanciful prediction of Appleton in 1935, Mr. Corbett said that if Appleton has beautiful homes, well kept streets, a fine park system, extensive industries and a rich farming community, it still will be far short of ideal unless it has something of a spiritual nature that it can offer for its people and he urged that this phase of a city's development be not forgotten while the effort is being made to grow in an industrial way.

### Federal Income Tax

Under the "Information at source" provision of the revenue act of 1924, all persons "in whatever capacity acting" are required to report to the Commissioner of Internal Revenue payment to others during the taxable year of \$1,000 or more. Information returns are carefully checked with the individual return of the taxpayer to whom such payments are made. Thousands of delinquents, and additional taxes aggregating hundreds of thousands of dollars have been discovered as the result of this audit.

The act requires report of payments of "interest, rent, salaries, wages, premiums, annuities, compensations, remunerations, emoluments, or other fixed or determinable gains, profits, and income."

A separate return of information for each employee whose salary or wage for 1924 was \$1,000 or more is required of employers. Payment for overtime, fees, commissions, bonuses and the fair value of food and lodging furnished as part payment for services should be included. # Old-Time Remedy Best for Heavy Coughs

Stubborn, racking, deep-seated coughs that refuse to yield to other remedies are often checked overnight with the old-time cough medicine that our parents and grandparents "swore by." In spite of modern discoveries nothing has been found to replace good old Dr. Bell's Pine-Tar-Honey for giving quick, sure relief for coughs, chest colds, bronchitis, spasmodic croup and other throat irritations. Doctors say that the pine tar quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing, while the honey not only gives a pleasant taste, but helps soothe irritation.

But be sure you get the original Dr. Bell's and no other. There have been dozens of imitations, but the original is still the best. It often stops the worst cough in 24 hours. Contains no injurious drugs, so can be given even to young children. Insist on Dr. Bell's. Only 30c at any good druggist's.

# DIRECTORY FORCE STARTS WORK HERE

# New List of Appleton Residents Will Be Off Press in June

The advance force of the Wright Directory company of Milwaukee arrived in Appleton Monday to start work on the census and canvass for the new city directory which will be issued here this year. In a few days other workers now engaged at Kenosha and Marshfield will be added to the crew here. The directory company has just completed a canvass of Madison.

The work in Appleton was begun a little earlier than was planned on account of a pressing demand caused by the recent change in house numbers.

It is expected that the census will be completed in about four weeks, if the weather is favorable. The directory would be off the press some time in June. The company has opened office quarters in the insurance-bldg in room No. 425. One feature of the new directory which will be of special help to the users is the use of the old and the new street numbers. Following the new house number the old one will be enclosed in parentheses.

Mr. and Mrs. Sexton will make their home in Clintonville.

# Why Women Shine

By Edna Wallace Hopper  
Perhaps a million women have asked me how I gained my famous beauty. And how I have kept it to my grand old age.

The reasons go deep. For 40 years I have searched the world for the best beauty helps in existence. I have spent fortunes to find them. Few other women had the money, the time, the incentive to discover what I got.

One of the greatest helps was given me by Lucile Lantelme, a famous Parisian beauty. She never used soap on her face. She had a liquid cleanser, free from animal or vegetable oil, which penetrated the skin to the depths.

It cannot assimilate in any way with the skin, so every drop used must depart. And all that mares the skin goes with it.

The greatest beauty experts, the world over, now employ this liquid cleanser. But the price of \$3 or \$5 bars it to the majority. So the average woman knows little or nothing about it.

I want all to know what it does. No beauty is possible without perfect cleanliness, and this is the way to that. I have arranged so that all druggists can now supply you this liquid cleanser. I call it Edna Wallace Hopper's Facial Youth. It will be a revelation to you.

My laboratory will furnish a sample free to any girl or woman who will try it. Simply mail the coupon. I hope that no woman who wants to look her best will omit this opportunity. Clip coupon now.

# A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Equally and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get a full pint of a family supply of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

# POPE HOLDS HIGH BOWLING SCORE IN WAUPACA LEAGUE

Hawks Still Lead—Basketball Team Is Defeated by Manawa Quintet

Waupaca—Among the high scores recorded by the secretary of Waupaca bowling league are the alley high score held by Buss Pope, 288. Earl Peterson still holds the league high score, 246; Martin Larson has the league high average, 187; the Kittens with a score of 916 have the largest score for one game.

The schedule this week is as follows: Monday, Feb. 23, Eagles vs. Kittens. Tuesday, Feb. 24, Hawks vs. Tigers. Wednesday, Feb. 25, Pirates vs. Wildcats. Friday, Feb. 27, Cubs vs. Badgers.

They now stand as follows:

Team	W	L	AV	Per.
Hawks	25	8	809	.756
Tigers	19	11	779	.633
Badgers	16	14	785	.533
Cubs	15	15	789	.500
Kittens	10	17	775	.485
Eagles	15	18	737	.454
Wildcats	13	20	761	.394
Pirates	7	23	731	.233

**CAGERS DEFEATED**  
Waupaca high school basketball team was defeated by Manawa Saturday night. The score at the finish was 9 to 8. The local team was composed almost entirely of substitutes as only two regulars played throughout the full game. During the first half Waupaca boys were unable to get going and at the end of the half the locals were trailing the score at that time was Manawa 8, Waupaca 5.

It was during the second half the local boys put up one of the best defensive games of the year. In doing so they held Manawa to one free throw, making their count nine while the Blue and White brought its own score to eight. Captain Cartwright was off his stride on free throws missing six during the game, which might have made the final results different had he been in form.

A hard game remains to be played this week Friday when the local boys journey to Stevens Point to play a return game there. Waupaca supporters of the team are to follow the team to watch the first half. Stevens Point won the contest played here by a score of 25 to 9. However the locals hope they will have hit their stride by that time.

**HOLDS PARTY**  
Miss Lucille Olson entertained at a fudge and rummy party at her home Friday evening. Gwendolyn Sanders won the high honors of the evening, and Anna Moller secured the consolation. The following young ladies attended, together with those mentioned: Margaret Anderson, Buelia Olson, Dorothy Hetzel, Clarice Churchill and Emma Johnson.

A pretty wedding took place Saturday afternoon at Holy Ghost Lutheran church, when Elma, daughter of Mr. and Mrs. C. M. Christensen, was united in marriage to Myron J. Hucutt, son of Mr. and Mrs. John Hucutt of this city. The Rev. Mattieson performed the ceremony in the presence of many friends and relatives. The church was prettily decorated for the occasion. After a short time the young people will be at home to their friends at a residence on Elm-st this city.

## STAGE And SCREEN

### NEW PICTURE, 3-STAR CAST IS THRILL HIT

George Fitzmaurice has produced in "A Thief in Paradise," now being shown at the Elite theatre, a thrilling, colorful romance that equals the high mark set by "On With the Dance," "To Have and to Hold," "Cythera," and other lavish screen plays which he has given to the world.

There are no dull moments in "A Thief in Paradise." It is full of action from the opening title to the final fadeout. It is the story of a man who masquerades as another man, falls in love with one girl and is loved by another—an unscrupulous Eurasian girl who is his accomplice in the impersonation.

One of the unique features of the picture is a polo game played by girls clad in bathing suits. The game marks the beginning of a thrilling chase and a rescue that equals in thrills the exciting climax of an old fashioned serial.

But "A Thief in Paradise" is more than a thriller. It has romance and drama of the most intense kind. There is a love story of a man who knows he has no right to claim the girl he loves, and who fights out his supreme battle himself.

## "NOT ONE TO SPARE" AT NEW BLOU WEDNESDAY AND THURSDAY

This picture will please any type of audience and should be especially welcome in home communities, where there are women and mother's clubs. Its appeal is the elemental one of love of home and family, and it is decidedly well directed and acted. Once seen, it will create new words of mouth notice for itself, and in community neighborhoods should be good for a strong repeat.

The story is extremely simple and a "teen-jerk" of the poorest type. A farmer and his wife, poor but happy in a family of seven children, receive a letter from the rich but childless brother, offering a substantial income if permitted to take away and adopt one child. The couple go in detail over the qualities which endear each child to them and can reach no conclusion. Finally the eldest girl is decided upon, and a sad parting takes place. As the train pulls in, however, the father finds it impossible to make the sacrifice and takes the child home again.

The pull in this production lies in the little human details, amusing and pathetic, with which it abounds. Mr. Hoffman has done wonders with the children, and the adults in the cast are also excellent. We can guarantee that there will not be a dry eye in the house and if your audience likes a "good cry" over clean, honest sentiment, here is the best offering we have seen in many a day.

### BLOSSOM TIME

No musical play presented during the present generation attracted such

unanimous praise as was accorded "Blossom Time," the Franz Schubert operetta, when it received its local premiere last season. Its return engagement at the Appleton Theatre, on Wednesday, March 11 should be in the nature of a continuous ovation of appreciation on the part of the exacting theatrical classes who are satisfied only with the ultra in their amusements. And while "Blossom Time" is certain to satisfy these sticklers for the best, its appeal is universal, for it contains all those elements that are desirable in plays of this character. The life and romance of the great composer, Franz Schubert form a basis for a fascinating book, to which compositions written by Schubert himself have been adopted in a most fascinating manner. There are no less than twenty musical numbers in the play that express the highest achievement of the great composer and all are utilized in a most natural

# FORMER PRESIDENT WILL ADMINISTER OATH TO COOLIDGE

Crowd Assured for Inauguration Despite Coolidge Simplicity

BY HARRY B. HUNT  
Washington—For the first time in the country's history the oath of office is to be administered to a president by one of his predecessors. This will be March 4 when President Coolidge is sworn into office by ex-President Taft.

Taft will be acting in his capacity as chief justice of the Supreme court. He is the first ex-president to hold this position, and he held it when the present chief executive took his oath of office following President Harding's death.

But on that occasion the oath was administered by Calvin Coolidge's father, John Coolidge, in his old new England farmhouse.

When President Harding took the oath, at the preceding inauguration, it was administered by Chief Justice White.

Coolidge's inauguration may not be the "big splash" of former years, but indications are it will draw just as big a crowd.

Washington railroad offices report that interest in the event is nationwide, that the demand for tickets is such that special reduced rates are to be in effect.

Railroads in the Trunk Line Association are selling round-trip tickets for one and a half times the price of a one-way fare.

The other roads have not yet made definite announcements, but by regulation of the Interstate Commerce Commission they must act in unison in such matters.

Applications for reservations are pouring in to the city's various hotels.

Those reserved so far include a request from Charles D. Hill, national committeeman for New York state for a reservation of 25 rooms and 100 seats at the inaugural parade.

Willis B. Dye, of the Indiana State Republican Committee, has asked for hotel accommodations and seats for 125 persons.

## "DAY OF GRACE" TO FILE FEDERAL TAX RETURNS

When a "last day" falls on a Sunday, persons who have bills to pay or reports to make are allowed one day of grace. That is what has happened in regard to the filing of federal income tax reports this year.

Under the rules and regulations, March 15 is the last day on which such reports may be made without incurring a penalty. Since March 15 falls on a Sunday this year, the last day for filing reports will be on Monday, Mar. 16.

A special representative will come to Appleton Tuesday to take charge of the federal income tax office in the city hall and will offer income tax payers help in making out their returns. He will stay here until Mar. 16.

## Getting Skinnier Every Day

Hollows in Cheeks and Necks Growing Deeper Every Week  
Something Must Be Done and Done Right Now—Quick

Tens of thousands of thin, run-down men—yes, and women too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now for McCoy's Cod Liver Oil Compound Tablets which any drug gist will tell you all about, is putting flesh on hosts of skinny folks every day.

One woman, tired, weak and discouraged, put on 15 pounds in five weeks and now feels fine.

Two all know that Cod Liver Oil is full of vitamins, flesh producing vitamins, but many people can't take it because of its horrible smell and fishy taste and because it often upsets the stomach.

McCoy's Cod Liver Oil Compound Tablets are as easy to take as candy and if any thin person don't gain at least 5 pounds in 30 days your drug gist will give you your money back—and only 60 cents for 60 tablets. Ask Schlitz Bros., Downer's Drug Store or any live pharmacist anywhere.

But be sure to get McCoy's, the original and genuine, and bear in mind that for thin, sickly kids they are wonderful—a very sickly child—gained 12 pounds in 7 months.

# St. Valentine Was Good To Nicholas Longworth

BY HARRY B. HUNT  
Washington—St. Valentine was good to Nicholas Longworth.

For not only did the day of that good saint bring Nick a baby still just 19 years taking three days, after he and "Princess Alice" Roosevelt were married, but that same day clinched the result in the contest for speakership of the next Congress in Longworth's favor.

Unless some entirely unlikely and unexpected combination can be effected by the supporters of Congressman Martin P. Madden of Illinois, before Feb. 27 Longworth will emerge from the majority caucus on that date with a safe grip on the gavel and the perquisites of that office.

Except for the "honors" involved, the post of speaker offered little either to Longworth or Madden.

As floor leader of the Republicans Longworth has wielded during the last two Congresses an influence virtually as great as will be his in the speakership.

The power of Madden, who continues as chairman of the great Appropriations Committee, will be in no way weakened by his defeat for the "higher" office.

He will still hold the purse strings of Congress, and the Congress, like the individual, can be powerfully influenced through its "pocket nerve."

The elevation of Longworth to the speakership will give the House a presiding officer of a type widely different from that of any incumbent in the last generation.

There is about him nothing of the dictatorial brusqueness that characterized "Czar" Cannon. He has none of the physical impressiveness and statesmanlike bearing of Champ Clark.

The air of dignity and aloofness which has enabled Speaker Gillett to give a certain distinctness to his reign is entirely lacking in him.

Longworth, however, possesses an unusual combination of ability and good fellowship which has made him not only one of the most efficient workers in the House but one of the best liked.

He has to an unusual degree the knack of holding an opponent's good will even while giving him a licking.

As a Republican of the ingrained orthodox type, he fights hard. But he fights fair, and he fights with a smile.

## Amrad Neutrodyne

Amrad was one of the FIRST manufacturers to be licensed under the famous Neutrodyne invented by Professor Hazeltine, of Stevens Institute of Technology. Instead of immediately offering the public a model including the fine Neutrodyne principle—but necessarily, "just another Neutrodyne"—much time was spent to check the performance of existing types under actual broadcast conditions, and to develop a set including the inherent advantages of the Neutrodyne principle, PLUS the essentials the public demands in the latest radio.

The AMRAD 5 Tube—2-Dial Neutrodyne is the result. Those who have tested or own this remarkable set, are most enthusiastic over its operation and performance. The purchaser receives the full benefit of all past developments in radio—and at the lowest possible cost consistent with quality materials and careful, experienced workmanship.

**NEUTRODYNE**  
"The Greatest Invention Since Broadcasting Began"

## STORES WILL HOLD 1925 STYLE WEEK OPENING MARCH 11

Unusual Window Displays Will Be Big Feature of Welcome to Spring

Appleton merchants will hold their formal spring style opening during the week beginning Wednesday, March 11, according to plans made by the style week committee of Appleton Advertising club at a meeting Monday morning at the chamber of commerce rooms.

Window displays are to be the chief feature of the opening this year, according to the plans. Stores not only will display the new spring goods customarily carried in stock but are planning to import special and elaborate merchandise. Lights will be turned on at 7 o'clock of the opening night, showing displays such as have never been seen here before.

G. S. Galpin, president of Appleton Advertising club, is chairman of the

style week arrangements. Others on the committee are W. W. Frank, Ed. Murphy, Julius Koppin, J. R. Whitman and Ralph Gee.

# Without the Newspaper

CENTURIES OF DARKNESS! Lifetimes of wierd and warped conjecture as to what other folk in other climes might be about! Tardy tidings, carried by courier—mistakes, misconceptions, misjudgments! What wonder the world stood still, judged in contrast to the staggering strides of recent years!

No newspapers! Turn loose your mind to wander amid those years upon years of groping, *unknowing*, narrowed living! A stranger from another county was a "foreigner". In speech, in thought, in habit, he was a continent away!

Now East knows its West, and North its South, drawn together in a common human brotherhood by the world's most potent force—the newspaper! With its coming, there came also Light—the light of knowledge—to brighten and broaden and quicken the progress of man.

In the interests of a truer appreciation of what we of Wisconsin owe to this University of the People—the Newspaper—this message is broadcast by the Wisconsin Daily Newspapers.

# APPLETON WILL BE FACED BY PROBLEM OF BLACKMAN SOON

## Heilig Tells World Forum That Negroes Are Leaving South for North

Education is the only solution of the Negro problem, an education that will raise the standard of skill for the Negro and educate him into the place where he can function as a full-fledged citizen, according to H. H. Heilig, director of director of Appleton Vocational school who spoke at the meeting of the World Outlook Forum today afternoon at the Y. M. C. A. Mr. Heilig spoke from the standpoint of a northerner who has studied the Negro in his own environment. An interesting discussion followed the talk.

Appleton has no Negro problem as yet, but it is coming rapidly, Mr. Heilig said. There always has been a steady movement of the Negroes from the south and it now is beginning to assume great proportions. More than 650,000 Negroes have come north in the last five years in comparison with an average of 20,000 per year in the twenty years preceding that period.

The causes of this movement are twofold, one from the south and one from the north, with the northern cause being the primary one, Mr. Heilig declared. Immigration from Europe has been curtailed, cutting off a large supply of cheap labor. The northern man now is soliciting his labor in the south. The southern cause is poor wages, and unstable social conditions, such as class distinction and fear of life. The Negro of the north gets better pay, better social conditions and better education for his children, Mr. Heilig said.

As an example of the poor educational facilities of the Negro in the south, Mr. Heilig showed that in Arkansas if a Negro entered school at the age of 6, he would be 27 when he finished the eighth grade as the Negro is allowed to go to school only a few months of each year. Another example is that in Mississippi there are only 1,000 high schools for whites and only 1 for the Negro and 840 consolidated rural schools for the white children and none for the Negro.

Many northern cities, such as Boston in this state, now find the Negro a real problem, Mr. Heilig said. The northern attitude toward the Negro is very important. The employment of force and fear and attitude of hate for the Negro has its reaction on the white man. The dominant race is more affected by contact than the lower race. The northerner does not understand the Negro and so does not understand the southern whites' attitude toward them. This usually causes the northerner to be less tolerant of the Negro than the southerner. A very bad thing, Mr. Heilig concluded.

## ROTARIANS CELEBRATE ON 20TH ANNIVERSARY

The twentieth anniversary of the founding of Rotary will be celebrated by the Appleton club at a banquet in the Hotel Northern at 6:15 Tuesday night, with wives of members as guests. The three speakers will be J. S. Bradford, the club's first president; J. L. Johns, president of the Kiwanis club, and Gustave Keller, Sr., theannal address of Everett W. VIII, Oklahoma City, Okla., president of Rotary International, will be read by Charles Henderson, vice president of the local club.

The program will include musical numbers, and a social hour probably will conclude the evening.

## LEGION IS UNDECIDED ON SCOUT TROOP PLAN

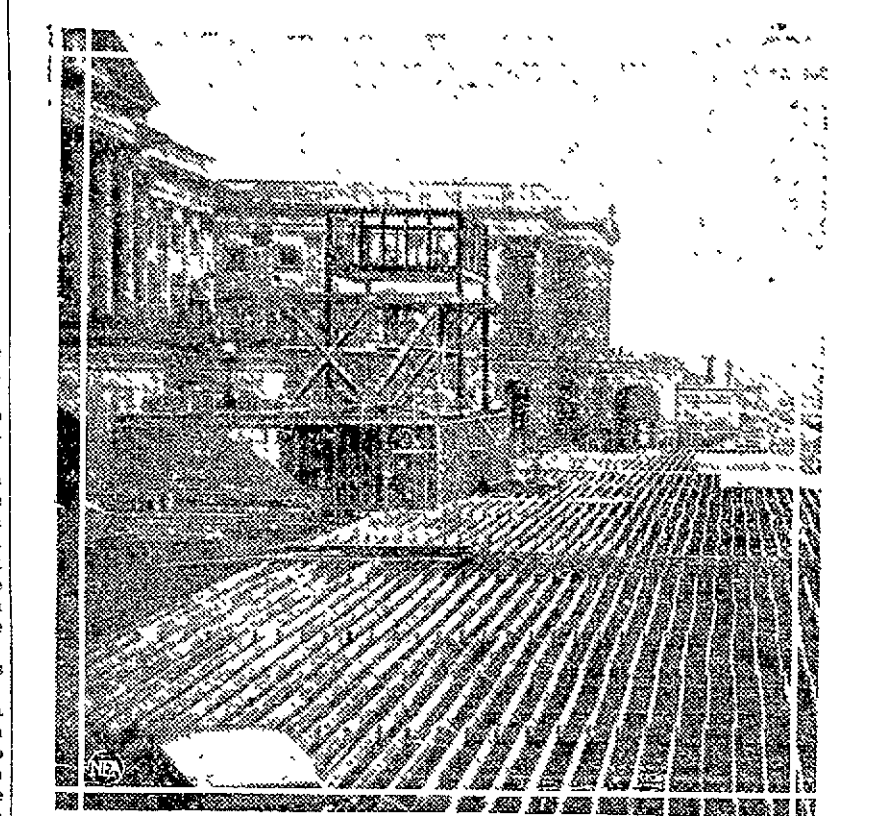

No decision was reached by the special committee of Onsey Johnston post of the American legion which met at boy scout headquarters Monday evening to consider the sponsoring of a boy scout troop. The requirements for organizing and maintaining the troop were outlined by T. V. Ketcher, executive of Valley council, Boy Scouts of America.

The committee expects to hold another meeting at once to give further consideration to the project and then to the legion executive committee and the scout council those working on the plan are John A. Morissey, post commander, J. N. Fischer and Lethar G. Grief.

## "During 60 years of Married Life"

Three Generations Kept Healthy and Happy

"Beecham's Pills were always considered indispensable by my parents during sixty years of married life and I am never without them in my home, as they are used when required by myself (aged sixty-one), and wife and children. This covers a period of over eighty years. My wife and sons also believe there is no remedy for constipation and biliousness equal to Beecham's Pills. So many so-called 'cures' for biliousness and kindred troubles leave after effects that are certainly injurious, but Beecham's Pills give prompt relief and leave one in a healthy and happy condition."

## Students Take Hike

Victor Voeks, son of Mr. and Mrs. Albert Voeks, 716 E. Pacific, and Walter Ott of Watertown returned to Northwestern college, Watertown, Monday afternoon after spending the weekend here. They started to hike from Watertown to Fond du Lac on their way to Appleton Saturday but found they were obliged to walk only part of the way because of offers of rides from passing autoists.

## It Happens Every Day

Simpson owned a Ford, but he had a Packard taste. On top of that he had an income that was a little above Fords, but considerably below the big boats.

The men at the club used to laugh every time he told them how he hoped to be able to get hold of a big car at "his figure." They said it couldn't be done.

His wife told him not to waste so much time on his plans and to get a few repairs made to the Ford. As for getting the big car, she said it simply couldn't be done.

And then one day, as he was taking his regular look through the Automobile columns of The Post-Crescent his dream came true!

He found a big car, less than a year old, that the owner was willing to sell at a large cut so that he could buy another model. And now Simpson's Ford has disappeared and he's riding around town in one of the "biggest of the big," yet—

Everybody Said It Couldn't Be Done!

## BARRACKS AT H. S. PLACED ON SALE

People who have been wishing the barracks would be moved from the high school grounds to remove an eyesore will have their wishes granted soon. The board of education has announced its intention to dispose of the building and has advertised for bids.

The barracks has become rather unsightly since it caught fire several weeks ago but the building could not be removed at once because of the insurance adjustment. It is now offered for sale by the board either to be moved or be torn down. Bids to be submitted to the board of education.

## \$30,000 LOST AS PAPER WAREHOUSE BURNS TO GROUND

Miller Paper Stock Co. Will Re-build Structure Destroyed by Fire

Menasha—A fire which started shortly after 8 o'clock Monday evening destroyed a large warehouse owned by Miller Paper Stock company, Inc. completely filled with bales of waste paper and rags. Three freight cars on the Soo line tracks loaded with the same material caught fire also and were nearly a total loss.

H. Miller, manager of the company, estimates the loss at approximately \$30,000. He said the property was insured for about 75 per cent of its value. He was home at the time the fire started and was unable to give more information as to its origin. When he arrived at the warehouse it was a mass of flames.

The fire department responded promptly and when it arrived flames were bursting through the roof. The firemen spent the entire night fighting the blaze and in protecting adjacent property. Because there was considerable waste paper in the bales the fire was one of the hottest with which the department has ever dealt. Thousands of people from the Twin Cities and the surrounding country gathered at the fire.

The warehouse was located on the Soo line between De Pere and Appleton, close to highway 13. The ruins were smoldering at 9 o'clock Tuesday morning requiring the presence of the fire department. Mr. Miller, manager of the company, said the building will be replaced at once.

## SURPLUS IN TREASURY MAKES TAX CUT LIKELY

In both houses and could do as much in an extra session as in the December session which probably would not get into action and pass another revenue act before March, 1926. The treasury also thinks that by Mar. 25 a larger surplus will have accumulated than is now a valuable asset that perhaps a greater tax cut will be possible. This precludes the thought of a cut in taxes payable next month. In other words, the treasury is against a small sized cut on 1924 taxes payable now and in favor of a large sized cut in the incomes earned this year and payable March 1926. It is important, however, that tax revision looks like a certainty for payments made in 1926, something that will to a large extent affect the course of business transactions and investments during the present year.

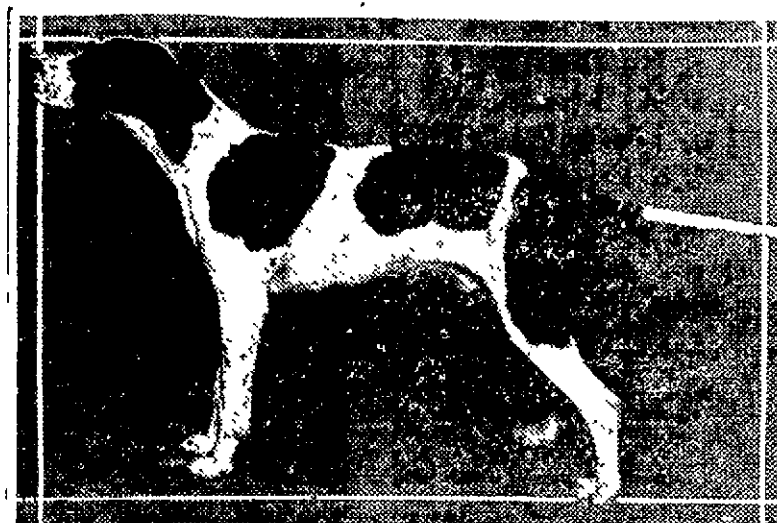

## KING GEORGE PASSES QUIET NIGHT, REPORT

By Associated Press  
London—King George, who is suffering from bronchial trouble, passed a good night, it was stated in court circles Tuesday morning.

His physicians visited Buckingham palace as usual during the forenoon but issued no bulletin, and if the present rate of progress by the patient is maintained it is believed no further bulletins will be given out except perhaps a final one announcing his convalescence.

The campaign cost of electing a new British Parliament is estimated at more than \$25,000,000.

## THE COUNTRY'S CHAMPION DOG

Of all the magnificent animals in the blue ribbon events at the Madison Square Garden, New York, kennel show, "Governor Moscow," a handsome pointer (shown above) was adjudged the finest. This means that he is probably the finest dog in the country.

## WEEKS PREDICTS EARLY DECISION ON LAKE STEAL

By Associated Press  
Washington, D. C.—A decision this week on Chicago's application for withdrawal of ten thousand cubic feet of water a second from Lake Michigan for use of its sanitary and sewage systems was predicted Tuesday by Secretary Weeks.

The secretary said he had formulated the plan in his mind but before drawing it up he would confer with Maj. Gen. Taylor, chief of army engineers, who suggests that a study be made by him of the testimony taken during the hearings concluded last Saturday.

With the secretary, however, the problem has been divided into two phases—how much water should Chicago be allowed at the present time and how long should the city be given in which to modernize its sewerage and sanitation systems. The secretary believes he has found the answer to each question.

## MESSMER RALLIES AFTER SEVERE ATTACK MONDAY

Milwaukee—Sebastian G. Messmer, archbishop of the Milwaukee diocese of the Catholic church, was somewhat improved Tuesday morning, after having suffered a slight setback Monday night. Considerable pain developed from the heart condition from which he is suffering. His physician said the attack Monday was one of the most severe he has suffered since he was removed to the hospital two weeks ago. He rallied well, however, and there was no change in his general condition except loss of strength.

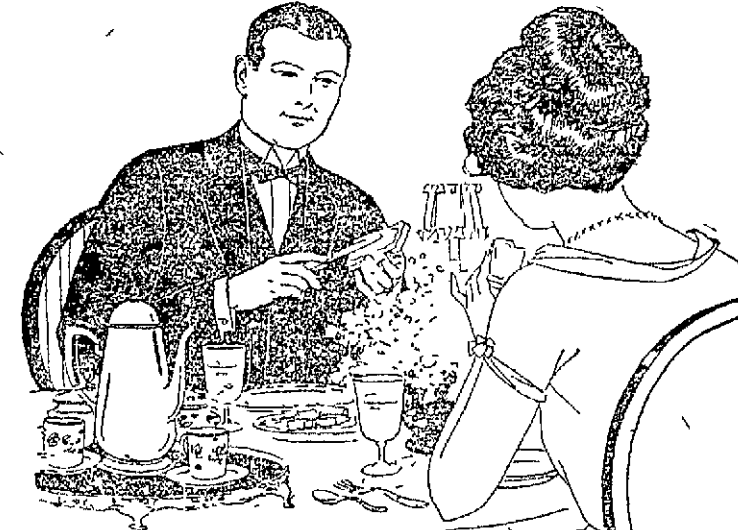

## MAKING BEER GLASSES KEEPS INDUSTRY ALIVE

Breslau—The manufacture of beer glasses has helped to keep the German glass industry on its feet during the last few months when there has been a let down in numerous other industries owing to the lack of ready cash for operating expenses. The demand has come chiefly from the home trade. Manufacturers, however, believe that after some of the pending trade treaties with other countries have been agreed to the export business will gradually improve.

# Girl's Face Of Today Is Termed 'Art'

FROM A GYNIC'S NOTEBOOK

Kipling said, "It's pretty, but is it art?"

A man looks at a girl's face today and asks, "It's art, all right, but is it pretty?"

He wonders if there are as many convolutions in her brain as there are marcel waves on her head. He hopes so truly.

But it takes a clever man to tell whether his sweetie operates with one brain cell or a whole battery.

For the far-seeing look in her eyes may not be caused by a mighty intellect at work but by the lamplight on her lashes.

And the chances are even that her wise cracks aren't hers any more than her complexion is but the best stuff of Al Jolson, Fanny Brice and the Orpheum Circuit.

QUESTIONS—ANSWERS

Dear Miss Grey, I thought I was engaged to a man my own age, but he doesn't believe in marriage, he now tells me. He suggests that we live as though married but without having ceremony. Do broadminded people really think this is all right?—Dorcas

No, they don't. And a man who really cared for you would not ask you to give up your reputation and spend your future by living with him under the common law. If he truly loved you he would want to protect you with his name. Give him up.

Dear Cynthia, I have two beaux. One I enjoy talking to more than to anyone else I know. He never kisses anyone else I know. The other is a "thriller." I adore to dance with him, and that and "petting" are all he thinks about when we're together. Which one do you think I'm in love with?—Doll Baby.

Neither, probably, although I would say that a man whose company you enjoyed, without the glamor of his kisses was rather more likely to hold a place in your affections than the "thriller." However, time alone can answer your question.

Miss Grey, What does one serve at an afternoon tea?—Bride.

Tea and coffee, sandwiches of all sorts, and cake and candies.

# Adventures Of The Twins

THE DISCONTENTED COUNTRY BOY

"Do you know of any more wishes that I can grant?" asked the Fairy Queen as she and the Twins lived along on Two Spot the big blue velvet butterfly.

They were having a sort of wish-giving party you know.

Nick said "There's a little boy who lives near us in the country. I often hear him say that he wishes he could live in the city. He says he is sick of the country."

"He does does he?" exclaimed the Fairy Queen in surprise. "That's a funny wish. Will you take me to his house?"

"Sure," said Nick. "His name is Chuck Anderson and he lives two houses beyond the Cross Roads."

Two Spot lit in a pine tree where they could see but couldn't be seen.

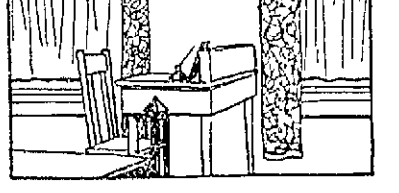

Wouldn't people have been surprised to see a big butterfly in the middle of winter with three passengers on his back?

No, it was better not to be seen at all.

Chuck Anderson was out shoveling snow. He was making a path to the wood pile.

"When you're through shoveling and have enough wood chopped for tomorrow," called his mother, "you may go sled riding until supper time."

"Aw, shucks!" growled Chuck. "I wish I lived in the city. City fellows don't have to shovel paths and chop

# Fashionable Paris Frowns On Bobbed Hair

BY HORTENSE SAUNDERS

PARIS has banned the bob. The Congress of French Hairdressers, an impressive sounding aggregation to say the least, has decreed quite solemnly against bobbed hair.

The "legislation" of this Paris congress also names the successors of the bob. Three new styles have been designed—the Directorate, the Louis mode and the Empress Eugenie style.

NEW STYLES

The Directorate style has the hair scooped up high on the head and distracting ringlets and curls tumbling over a band stretched above the temples.

The Louis mode grants the freedom of the ears and allows some very feminine curls to drip off the nape of the neck.

If you want to look like Empress Eugenie, you should have two bands across the forehead with the hair falling over the shoulders.

Another Paris innovation is the radio wig, a creation by Aimand Blatt. It is an elaborate superstructure of hair that matched the gown. It is made of Nile, green or hind or any exotic color you select to match your gown.

EXTREME OF STYLES

Naturally this is the most extreme of styles. For the more conservative are coils of natural colored hair, that may be anchored on the head at any convenient spot to give a more elaborate effect and to conceal the fact that the lady's hair is bobbed.

The Paris decree probably will have little effect in America. The fashion decrees of Paris are being followed less and less in this country and American hairdressers doubt that the American girl will quit bobbing her hair just because France has issued a pronouncement.

WILL TAKE TIME

American hairdressers are not so arbitrary. They understand the American woman well enough to understand the folly of trying to force any style upon her that she isn't ready to accept.

After all you can't go immediately from the comfortable boyish bob to puffs and curls, even if nature would obligingly grow a crop of long hair overnight. The psychological change must come simultaneously with the styles.

New York hairdressers are trying to reconcile the lion and the lamb by means of whole and partial transformations which may be added for the evening when the need for allure is more keenly sensed than in the day.

FASHION HINTS

A BLOUSE

A blouse of turquoise blue flannel, collared and cuffed in white, and trimmed with white stitching, is combined attractively with a white satin skirt.

NEAT GARTERS

Rhinestone buckles, embedded in lace or ribbon trim the most ornate type of garters.

NEW FAD

One of the latest fads from Paris is the wearing of the very large flower at the corsage which has a tiny vanity case inset in the petals.

MEDALLIONS

Medallions or cut out sections of gold leather are used very effectively to trim dark blue cloth or satin dresses.

LOVELY SWEATERS

Sweaters of hushed wool come in the most lovely shades of canary yellow and orange, and with white wool skirts make ideal sport costumes.

wood, I wish I lived at Uncle Charley's."

"I know where his Uncle Charley lives," said Nick. "I was there once. It is a fine house near a park."

"Then come," said the Fairy Queen. "We'll go there at once. I am going to speak to Uncle Charley."

"Oh, but he's a sort of funny man," said Nick. "He never would believe in fables."

The Fairy Queen laughed. "I won't let him see me," she said. "I'll just whisper in his ear."

Two Spot flew off to the city where Uncle Charley lived.

I can't tell you where the butterfly landed or how they got into the house or where the Fairy Queen perched as she whispered into Uncle Charley's ear. But it all happened anyway. And the first thing you know Uncle Charley was writing a letter to his nephew in the country.

The letter said "Dear Chuck, I've been thinking a lot about you today and would like to see you. I am going to speak to your father about you coming to live with me in the city. You can go to a good school, and study music and all sorts of things. Yours lovingly, Uncle Charley."

That letter and another letter to Chuck's father went by the same mail. And the next day Chuck arrived, trunk and all, at the big house in the city.

The Fairy Queen and the Twins were there to see him, although neither Chuck nor his uncle saw them!

"I know I'm going to like being a city boy," said Chuck. "I got tired of the country and shoveling snow and chopping wood and doing chores."

It was funny! I was just wishing I could come and stay with you when I got your letter. It was all right as though a fairy must have told you!"

"We'll come back later and see how things are going," said the Fairy Queen to the Twins.

LETTER FROM JOHN ALDEN PRESCOTT TO MRS. SALLY ATHERTON, CONTINUED

In addition to the sentimental side of the proposition, my dear Mrs. Atherton, Mr. Hamilton's request opens up to me the most ambitious opportunity I probably would ever have offered me, and when opportunity knocks at the door one must surely open.

The very thought of working onward and upward to the success which I shall try to make gives me a stupendous thrill.

In this you can fully sympathize with me, for you and I have thrived together in the putting over of many smaller enterprises and I hope you will have the same feeling of great enthusiasm over this new business that I have. I shall of course expect you to come over here with me. Indeed, I would hardly know how to do the things I want to without your help.

You will have entire charge of the advertising and publicity end of the plant, and when my salary commences, your salary will automatically be put at fifteen thousand dollars a year.

I shall probably stay here until all is over. There will be much to be arranged, but I know my business at home is in good hands.

Will you please read as much of this letter as you care to to Mr. Bullock when you hand him the enclosed letter of resignation.

Sincerely,

JOHN ALDEN PRESCOTT

Letter From John Alden Prescott to President Bullock of the Acme Advertising Co.

My Dear Mr. Bullock: It is probable that this letter of resignation will be quite as much of a surprise to you as it was to me, but I find the affairs of my father-in-law in such shape at the immediate prospect of his death, that I have accepted his request that I become sole executor to

his will and manager of the steel plant in his stead.

You can readily see that even if this were not a special opportunity for me, it would be an imperative duty.

Will you let me say that in the years we have been together I have learned from you the most upright and splendid of business methods, and if I do amount to anything in my new position, it will be because of your fine example.

I cannot tell just when I will be back, as Mr. Hamilton seems to depend upon me so greatly, and he feels there is much to be decided before he passes on.

His attitude in this inevitable situation is one of great interest to me. If, when the time comes that I shall lay down this earthly life, I shall face the great unknown with the same brave equanimity as does my wife's father, I shall feel my life has not been spent in vain.

Mrs. Atherton will give you all the details, and she will also close up the business in such a way that it can easily be turned over to another. I feel that in the future you can get along much better without me than I can without you, but just now this is the duty that lies nearest, and as such it must be done.

Sincerely,

JOHN ALDEN PRESCOTT

Health Hints

DIET FOR MOTHERS

Proper feeding of the mother should begin in the earliest foundation period of the prenatal life, Mrs. Mann learned.

It seems to be one of Nature's mistakes that the mother's teeth often decay during this period.

This defect in the teeth is brought about by the growing child requiring much calcium for the development of its teeth and bones. The mother's food does not contain enough of this mineral substance for both bodies, so the mother suffers.

To protect both her own teeth and the child, the mother should drink at least a quart of milk daily, and eat some green, leafy vegetables every day.

Here's a proper diet for an expectant mother:

Milk, one quart a day, bread, cereal or macaroni of any kind or meat, two kinds of vegetables every day, one leafy and one bulky, fresh fruit two or three times a week, meat, fish, eggs, cheese, beans, peas, lentils and any fat in moderate amounts.

She should avoid:

Fried or highly seasoned foods and an excess of tea, coffee, candy, sweets and rich pastry.

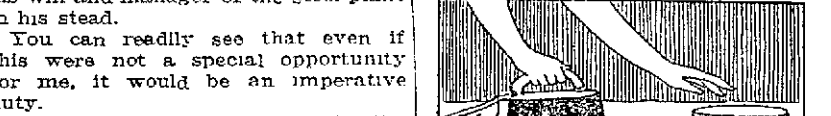

A COUGH REMEDY WITHOUT OPIATES

Many cough preparations contain some one or more harmful drugs which are added to take the place of opiates. None of these narcotic substitutes have ever been used in POLLEY'S HONEY AND TAR COMPOUND. The name of every ingredient is plainly printed on every card (on X-ray what you are taking when you take Polley's). It clings to the throat. Good for old and young. You have a cough, why not try it? Refuse substitutes. Sold everywhere.

# Household Hints

REMOVE ODORS

When pressing a garment that has been cleaned in gasoline add about one third part vinegar to the water.

In which you dampen the cloth you use over the fabric. This will remove the scent of the gasoline and prevent creases forming.

BREAD DOUGH

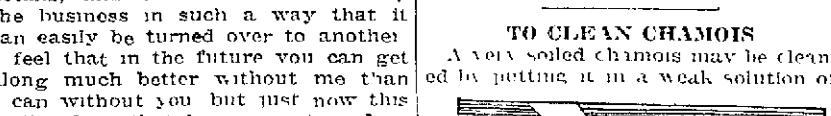

Bread dough that contains large bubbles has risen too fast or too long. It should be cut down and kneaded to distribute the gas more evenly.

MEAT STOCK

Meat stock used instead of water in meat sauces, gravies and stews makes them much richer.

TO CLEAN CHAMOIS

A very soiled chamois may be cleaned by putting it in a weak solution of

soft water in which there is also some fine sand. Leave it a few hours, then you can rub it clean very quick.

SAVED FRIEND FROM HOSPITAL

Mrs. Heckman Decided to Try Lydia E. Pinkham's Vegetable Compound—Note Results—

Council Bluffs, Iowa.—"I had pains in my back and sides and headaches, so that I could not do my work. Once in a while I would be sick a week. A friend told me that Lydia E. Pinkham's Vegetable Compound had kept her out of the hospital, so I thought I would try it, as I had tried a number of other medicines. Now I feel like a different person and am telling my friends about the Vegetable Compound helping me, hoping they will let it help them, too."

—Mrs. ETHEL HECKMAN, Box 21, R. F. D. No. 1, Council Bluffs, Iowa.

Saved From An Operation

Monessen, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for a serious case of female trouble. The worst pain I had was in my right side and back with swelling in my side so that I was unable to walk at one time. I was ordered to go to the hospital, but here I am, still without an operation. I saw your advertisement and have taken the Vegetable Compound with splendid results."

—Mrs. J. NEALSON, 842 Donner Ave., Monessen, Pa.

# Slip-On Sleeves Now Popular In Evening Gowns

New York—The coats of the latest ensemble suits shown here are called seven eighths coats but they are almost as close to 100 per cent as ivory soap. That is, they are almost identical in the length of the skirt. The neck line of the dress beneath them is almost universally round.

The black sateen sleeves worn by country grocery clerks are back in fashion. Some of the new evening gowns have detached sleeves of exactly similar design which are held up by an elastic band above the elbow. These sleeves however are of crepe satin beautifully embroidered.

The Vogue for ensembles has even reached cases. For example one may buy a lace-trimmed and beaded circle of a corset separately or she may purchase a body support which

combines them all or any combination of them.

The Vogue for glove silk lingerie and for linen under things has been increased because of the growing number of women who wear rubber bathing girdles. The pressure of the latter necessitates a perfect fitting, soft material beneath to avoid discomfort.

NEW HATS LIKE HELMETS

London—Some of the new millinery and petit small hats for spring are the London bob that they have so neatly the shape of the helmet of the London bob that they have been formally christened "bobs" in the trade. The bobs, however, turn up instead of down and are frequently trimmed with leather bands and buckles.

The costume dress has come into full favor at the January functions in London, especially the bouffant type. The spreading skirts of that style usually are quilted much in the manner of an old time bed spread.

WHITE QUILTED WAISTCOATS

Chamonix—Some of the newest skating and tobogganing costumes worn here conceal the knickerbockers by a skirt. This is buttoned at the side until the wearer goes into action when an unfastening of the buttons provides ample freedom of movement.

Paris—White quilted waistcoats form a distinguishing feature of some of the new spring tailors. For example, a gray drapella suit over mount's a white waistcoat worn over a blue plique stock. The coat of this suit is fastened with two buttons placed low and close together, giving a full view of the waistcoat.

# LA WRENCE FIVE MEETS KNOX, CARROLL IN ARMORY G

## Basketball Fans Get Last Chance To See Blues Play At Home

Important Midwest and Little Five Battles Will Wind Up Home Season Thursday and Friday

Lawrence basketball fans will see the Blues in action on their home court the last time this season when Knox college of Illinois invades Armory G Thursday and Carroll college of Waukesha plays here Friday evening. Both these contests are hoped to be hard battles. Knox is said to have a deceptive outfit this year, dropping apparently easy contests and coming back to win in tilts that were marked up beforehand as lost. Carroll already has chalked up one victory over the Lawrenceans, winning 16 to 11, at Waukesha, and will make a strong attempt to pile up another.

Lawrence undoubtedly has the best team in both the Midwest and Little Five conferences and unless the unexpected happens is locked up as a heavy favorite in the Knox game, and hoped to defeat Carroll also. The second game of the week, however, is expected to make the Blues step out, and Athletic Director A. C. Donney believes that if any team left on his schedule is going to defeat his quintet it will be Carroll. Beloit and Milton will furnish the final competition for the Lawrence quintet in out-of-town games, and while Beloit always has been a strong opponent, especially this year with Von Draschek's phenomenal shooting, the Blues have defeated Tommy Mill's outfit once and expect to do it again.

Milton was the first victim of the Lawrenceans this year, and lost the opening game, 38 to 10, in January. While they have improved considerably and will be playing on their home court, the Miltonites are not looked upon as dangerous.

This makes the Knox and Carroll contests the most important left in the Lawrence schedule, and it looks as though all previous records of the Lawrence team will be broken Thursday and Friday, although it is difficult to imagine how a large crowd can be crammed into the hall than attended the Coe game here.

Tickets will be on sale at Bellings drug store for reserved seats, which are in the first row in the balcony.

## HOPPE ELIMINATES JAP FROM CUE TITLE RACE

Chicago—The veteran Willie Hoppe, defending his 132 balling billiards title Monday night, eliminated Kamakichi Suzuki, the Japanese entry in the opening match of the international title tournament here.

The Japanese, playing in his first international meet, led the champion for fourteen innings, until Hoppe struck his characteristic stride and finished in fifteen innings 400 points to 215.

In Tuesday's matches, all at 400 points, Welker Cochran of Hollywood, Calif., meets Eric Hagen of Chicago, and Jack Schaefer, who once defeated Hoppe for the championship, engages Edouard Moremans, Belgian titlist.

## BADGER QUINTET BOWS TO PURDUE FIVE, 30-22

Madison—Purdue trounced Wisconsin in a fast basketball game here Monday night, 30 to 22. The visitors played a stellar game, with Spradling and Wellman leading. Purdue had better luck than the Badgers with the baskets. Barnum and Barwig were the outstanding performers for Wisconsin. Bain and Miller, comparatively new in the Badger lineup, showed up well.

## NINE CATCHERS IN 100 GAMES OR OVER

There were just nine catchers in the two major leagues who caught in 100 games or over last season. The American supplied five of them. The following caught the grade: Russ Washington, 147; Severide, Browns, 130; Perkins, Athletics 123; Bessler, Detroit, 121; Gonzales, Cards, 119; Snyder, Giants, 110; Schang, Yankees, 106; O'Neill, Braves, 106 and Harnett, Cubs, 105.

## GROH ESTABLISHED NEW MARK IN FIELD

Groh of the New York Giants set a new fielding record for National league third baseman in 1924. Groh hung up a mark of .953, having 121 putouts, 238 assists and three errors. This beat the former record of .946 made by Hans Lobert of the Phillies in 1912.

## Brief Sketches Of Big Stars

### F. C. "CY" WILLIAMS

Phillys Outfielder  
Born—Vadana, Ind., Dec. 21, 1888. Major League Career—Joined Cubs in 1912, coming direct from Notre Dame University. Traded in December, 1917, to Phillies for Dode Paskert.

Outstanding Feats—Made 41 home runs in 1923, tying Babe Ruth for four-homer honor. Crashed out three four-pitchers in one game on May 11, 1923. Home runs in two consecutive games equalling modern record made four home runs.

## THREE CONTENDERS FOR LIGHTWEIGHT CROWN ELIMINATED

Benjamin, O'Brien and Goodrich Survive First Fistic Tests

New York—Three candidates, among them one of the hardest hitters of the class Tuesday, are far removed from the lightweight boxing crown, which Benny Leonard let fall recently.

The first three elimination matches in the New York State Athletic commission's tournament, to name a champion, shattered the hopes of George (K. O.) Chaney of Baltimore, Eddie (Kid) Wagner of Philadelphia and Jack Silver of the Pacific coast. The first two went down to defeat in Madison Square Garden, while Silver bowed to Joe Benjamin out in San Francisco.

Sensation entered the squabble when Chaney was knocked by Tommy O'Brien of Milwaukee, who only this winter lost on points to Jack Bernsten of New York in the Garden. Up to the sixth round when the final punch arrived the Baltimore veteran had galled with a fist of iron. But in the sixth, a circling right apparently caught Chaney off balance and he went to the floor but was up again only to meet another jolt. Jimmy Goodrich, the newsboy of Buffalo, gained a decision over Wagner after two extra rounds had been fought.

## NURMI TAKES IT EASY BUT WINS HIS EVENTS

By Associated Press  
Baltimore, Md.—Paavo Nurmi goes his conquering way through the highways and byways of American tracks but the tireless tourist from Finland has no intention of "burning" himself out before the completion of his campaign in this country. The largest crowd that has ever witnessed an indoor meet here saw the famous Finn stride easily to triumph Monday night in a two-mile race featuring the Johns Hopkins Fifth regiment games, but though Nurmi was credited with somewhat doubtful record for 3,000 yards on the way to the finish, he took matters rather easily in comparison with many previous performances.

Nurmi's time at the finish, 9:18 4-5, was more than 20 seconds slower than his own world's record. His 3,000-yard time was 7:54 3-5.

Harry Steel, Olympic champion, who once spurned a pro career for life on the farm at dear old East Sparta, O., has suffered a change of mind. Steel has turned professional.

Within the near future he hopes to meet Munn in a championship bout. Steel is a graduate of Ohio State university. He went over to the Olympic games as an alternate. It was found necessary to use him in the heavyweight class. He responded by winning all four bouts and the championship.

In the Olympic bouts Steel looked like the finished mat artist and was offered a number of lucrative contracts to turn pro but refused them all. Evidently the winning of the

## VERBRICK OVERCOMES LEAD TO BEAT KOLB

Overcoming a lead of 40 points near the end of the match, E. Verbrick Monday night nosed out "Doc" Kolb, 155 to 152, in the Recreation Hall billiard tournament here. This was the closest and most sensational match played so far, but its equal is expected Tuesday evening when Kolb meets W. Russell in a handicap match which practically will decide the title.

Russell must shoot 175 points to Kolb's 155.

The match will start at 8 o'clock, and admission is free.

## LINCOLN, FOURTH, FIFTH WARD WIN CAGE GAMES

Lincoln, Fourth ward and Fifth ward cagers Monday afternoon came out on top in the first series of games in the Grade School Basketball league, defeating the First ward, Columbus and Third warders respectively. In every case the winners had large margins, but the losers showed signs of brilliancy in late rallies.

## FOUR STATES INVITED TO DEAF MUTE CAGING MEET

Indianapolis, Ind.—Four states have been invited to participate in a basketball tournament for deaf mutes to be staged here on Feb. 27 and 28 at the Indiana State school for the deaf. The athletic department of the school is sponsoring the meet, which have been invited teams composed of deaf mutes from Ohio, Wisconsin, Illinois and Indiana.

## ONE OF VETERANS

Zach Wheat of Brooklyn is one of the oldest players in the majors in point of service. Wheat joined the Dodgers in 1909. He has been with the same club ever since.

Kansas City—Gabriel Kaufman, manager of Wayne (Big) Munn, heavyweight wrestling champion, agreed to sign a contract with a Chicago syndicate that Munn would wrestle any five men whom the syndicate would choose.

Milwaukee—Jole Sangor, Milwaukee boxer, was forced to cancel two bouts as a result of injuries to his eye received in his bout last week with Pete Sarmiento in Minneapolis.

Hagen, it will be recalled, gave his opponent one of the worst trouncings ever recorded in a match of similar importance, winning 17 to 15.

## Olympic Title Holder Seeks Crown Of Munn As King Of Grapplers

Harry Steel, Also Graduate of Collegiate Mat, Aspires to Championship

Wrestling now is one of the liberal advantages of a college education. The success of Wayne "Big" Munn in winning the heavyweight championship of the world has fired other college athletes with the ambition to emulate him.

Munn is a product of University of Nebraska. While a collegian he starred at tackle on the football team and was also a crack wrestler.

Unless present plans miscarry the heavyweight wrestling title will shortly resolve itself into a "Rah" "Rah" affair between Wayne Munn of Nebraska and Harry Steel of Ohio State.

Harry Steel, Olympic champion, who once spurned a pro career for life on the farm at dear old East Sparta, O., has suffered a change of mind. Steel has turned professional.

Within the near future he hopes to meet Munn in a championship bout. Steel is a graduate of Ohio State university. He went over to the Olympic games as an alternate. It was found necessary to use him in the heavyweight class. He responded by winning all four bouts and the championship.

In the Olympic bouts Steel looked like the finished mat artist and was offered a number of lucrative contracts to turn pro but refused them all. Evidently the winning of the

world title by Munn has caused him to believe he has a chance.

During his college days at Ohio he was a star athlete. For three years he was a tackle on the football team. In his senior year he captained the wrestling squad that won the Western Conference title.

Steel is six feet three inches tall and weighs 210 pounds. He has no fear of Munn, despite the champion's advantage in height and weight.

The wrestling game, in disfavor for years, bids fair to do a comeback. The victory of Munn, breaking the wrestling trust that has practically controlled the sport, is certain to be a big help.

Baseball was improved by the entry of the college star into the professional ranks, wrestling is certain to profit in the same manner.

Men of the calibre of Wayne Munn and Harry Steel are a credit to any sport. Munn as champion and Steel as contender gives a college favor to what may be a championship bout of the near future.

The experts who regarded Munn's victory over Lewis in the nature of a fluke have already changed their opinion. Even the ex-champion, Frank Lewis, has but kind words to say of his conqueror.

"Munn fooled everybody, myself included," is the way Lewis describes the loss of his title.

Hot Springs, Ark.—Eddie Mitchell, Toledo, won from Johnny Carroll, New York, in the second round.

## TRYOUTS REPLACE SCHEDULED TRACK MEET AT LAWRENCE

Interclass Tourney Postponed Because of Men With Glee Club

An interclass track meet scheduled for Saturday at Lawrence college was postponed because of the large number of men on the Glee club trip. In its place, a preliminary tryout for the track squad was held. The results:

## WATERTOWN QUINT COPS THIRD PLACE

On Friday the Orange invades Oshkosh for a conference game. Appleton nosed out the Sawdust City schoolers, 23 to 20, early in the season with a full squad, but will have to fight harder this time to hold its own. The Oshkosh players showed good form on the floor here and playing on their home court are confident that they will be able to even the count.

After the Oshkosh contest there is one more on Appleton's schedule, which will bring Fond du Lac here. This is expected to be one of the hardest fought games on the menu for Appleton, for Fond du Lac has a wonderful team despite its defeat, 13 to 11, at the hands of Oshkosh Friday.

The following high schools compose the Appleton district and will be represented here on Mar. 12, 13 and 14: Appleton, Bear Creek, Brandon, Clintonville, West Green Bay, Chilton, Ellbert, Hortonville, Kaukauna, Little Chute, Medina, Manawa, Menasha, New London, New Holstein, Princeton, Seymour, Shiocton, Tigerton, West DePue, Weyauwega, Wittenberg and Wrightstown.

With Appleton weakened by its losses, the tournament is bound to produce some close and interesting fights. Last year West Green Bay and Brandon gave the Orange a tussle, but there was little doubt as the ultimate outcome. This year Brandon has won every game, and West Green Bay is going strong.

Kaukauna, under the coaching of Bill Smith, former Lawrence star, has turned out one of the strongest teams in years. Recently the Electric City youngsters defeated Appleton, 10 to 2, in a hot scrimmage on an Appleton court, although Fraser and Courtney still were on the Appleton squad at the time. This indicates Kaukauna also will be up in front when the tourney starts, and some of the fives from the smaller towns also promise close competition.

However, if Kevin succeeds in drilling his new men into shape, Appleton probably will be up in the first division with Brandon, West Green Bay and Kaukauna, and perhaps Menasha as chief contenders.

Philadelphia—Law Tendler, Philadelphia, welterweight, scored a technical knockout over Joe Reno, Trenton, in five rounds.

Seranton, Pa.—The referee stopped the bout bout between Harry Greb, world's middleweight champion, and Young Fisher, Syracuse, N. Y., in the sixth round, on the charge that Fisher was stalling.

Ineligibility of the only two regular veterans on Appleton's squad and the consequent defeat at the hands of Manitowoc Friday killed hopes for an Orange championship in the Fox river valley high school conference, but still left a good chance to cop the district tournament here next month and get into the state tournament at Madison. While the loss of Courtney and Fraser was a hard blow, Coach Juel Kevin is drilling Knap and Cookson to fill their places and is confident his squad still will be able to give the other teams in the district a hard run.

# COUNTY SHIPS OUT QUARTER MILLION IN LIVESTOCK

## THIS IS ARGUMENT FOR LOWER FREIGHT RATES ON CATTLE

Seven Associations Prove Value of Cooperative Marketing from Farms

Farmers cooperative shipping associations of Outagamie-co did more than a quarter of a million dollar business last year, according to a combined report of the association shipping managers and R. A. Amundson, county agricultural agent. The gross receipts of the shipping associations at Drexel, Black Creek, Seymour, Greenville, Kaukauna, Apple Creek and Center Valley amounted to \$289,818.46 for the year. The Dale shipping association with receipts of \$90,000 is not included in the report.

The shipping associations are emphasizing these figures in their effort to impress the railroads and obtain more favorable freight rates. The shipping managers and association officers also point out to farmers the advantage of cooperation.

**LESS FAILURES**  
"Six million dollars worth of farm business was done in the United States in 1924," it is pointed out. "There are less failures in cooperation than in private business. All the cooperation in Outagamie-co is doing probably around \$1,000,000 worth of business every year, and the shipping associations did over a quarter of a million."

Three points are emphasized: The volume of business that while the railroads quote a rate of 17.5 to 24 cents per hundredweight, most of the associations actually paid about 35 cents a hundred; that the associations that could load full loads had the smallest expenses.

The largest business of the year reported on by the seven associations was done by the Center Valley Livestock Shipping association, which had gross receipts amounting to \$59,984.85. The Apple Creek association was second with \$33,155.61, and the others were as follows: Drexel \$27,310.55, Black Creek \$23,535, Seymour \$23,510.18, and Greenville \$25,128.50.

**FEW SHEEP SENT**  
The Center Valley association handled the greatest amount of cattle, but the Drexel association shipped the greatest number of hogs. The former shipped one-third of the total head of calves, and the next greatest number of calves was shipped by the Kaukauna association. Few sheep were shipped, the Drexel association leading in this respect. The Greenville association having an average load of 15,080 pounds got the lowest freight rate at about 19 cents. Drexel paid an average rate of about 28 cents, while the remaining associations paid an average rate of about 33 cents.

A total of 157 cars was shipped by the associations to Milwaukee, and 68 cars were shipped to Chicago. Center Valley shipped all of its cars to Chicago, and Drexel and Black Creek associations shipped both to Milwaukee and Chicago, while the remainder shipped to Milwaukee only.

The seven associations shipped a total of 851 head of cattle, 6,643 hogs, 6,640 calves and 93 sheep. The gross receipts were \$293,818.46, the total weight 2,550,521 pounds, the average rate 33 1/3 cents, yardage \$1,912.25, feed \$1,292.36, commission \$4,043.41, net receipts \$193,231.31, total outside expense \$14,297.91 and outside expense per car \$451.25.

## SPUDS ARE HELD FOR HIGHER PRICE

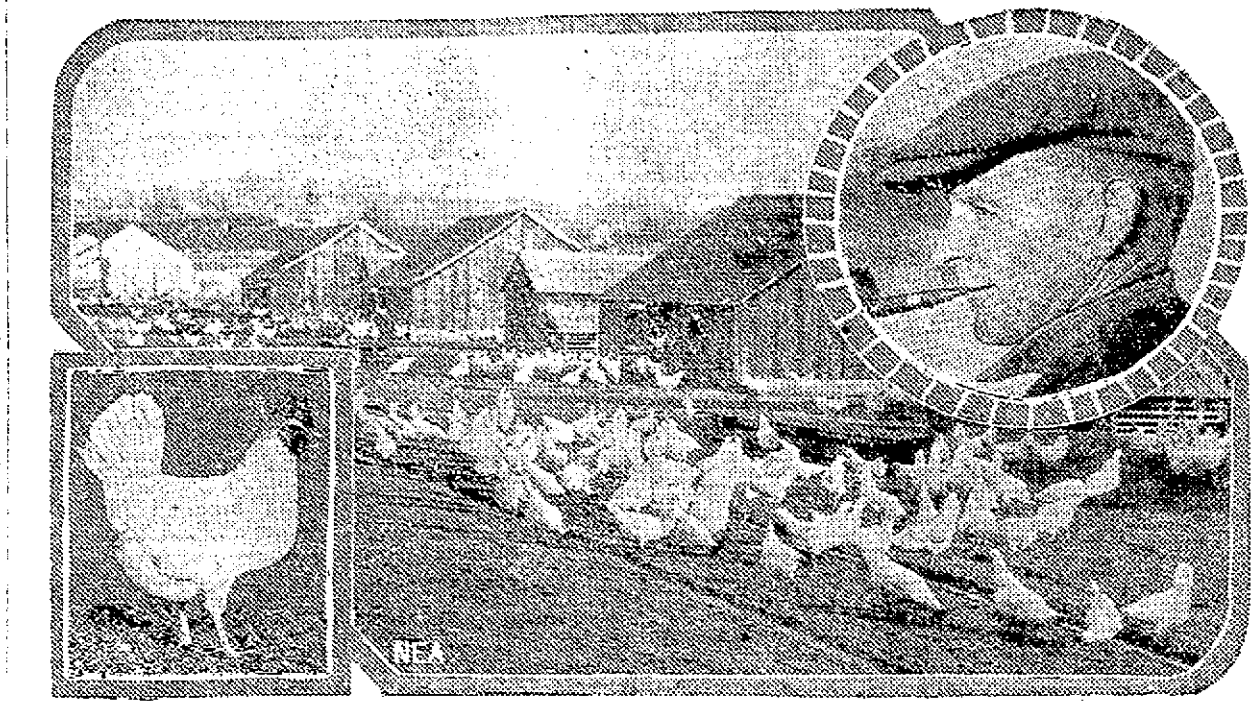

Growers About on Par With Last Year Due to Large Yield—Shipments Behind

Madison — Due to a higher average yield, the Wisconsin potato grower's income this year will be about on a par with the last year, even though prices are lower, the state department of markets has reported. The department issued the following statement:

"There is much conjecture at this time as to what is going to happen in the potato market during the remainder of the present season. There are large quantities of potatoes in the hands of the growers in the various sections and these are being held for higher prices. Somehow or other, there is a general opinion among growers that the market will improve considerably later on in the spring. This opinion seems to be based on the idea that potatoes on the central markets will not be so plentiful at a later date. Reports are coming into the state that there has been considerable waste in the crop due to blight, hollow heart and dry rot, and that large quantities have been fed this winter on account of the high price of feed."

"Statistics show that Wisconsin is about eight or nine hundred cars behind in its shipments, as compared with a year ago and that up to this time the number of cars shipped is equal to about one-half of last season's entire shipments. The most noticeable feature of the conditions at Wisconsin shipping points is the steady market that has existed since the first of the year. Prices paid to farmers have varied but little, and the present price is on a par with prices paid at the first of the year. The present price, however, is about 10

## Has 50,000 Hens On His Poultry Farm But Not A Rooster To Be Found There

Petaluma, Calif. — Fifty thousand

chickens—

And you never hear a rooster crow on the place.

Never see a mother hen digging

up worms for baby chicks.

It's a "henery" pure and simple.

Is the Corlies Ranch here. It is said

to be the greatest egg producing

farm in the world.

At least 30,000 chickens are heard

a day—and each cackle means an

egg. Packed 30 dozen in a case, a

truck is required to move 70 or more

cases a day to the poultry exchange

for shipment.

**JUST A TRADER**

You'd expect the head of this

farm to be a past master at "chick-

enology," a specialist in poultry dis-

eases, poultry breeding, cross-breed-

ing, historic strains, trap nests and

the rest of the things that bother the

beginners in chicken raising.

But Frank W. Corlies, the proprie-

tor, assures you that he doesn't pre-

tend to know what it is all about.

"Getting chickens is just like trad-

ing horses with me," he says.

"Every spring, I'm in the market

to sell about 8000 hens and to buy

10,000 pullets. I scout around to find

where I can sell my hens for the

highest price, and then I haggle

around until I get my pullets at the

lowest price.

"We're too busy feeding chickens

and gathering and packing eggs to

bother around trying to run setting

hens or incubators. So it's easier to

buy than worry."

**\$70,000 FEED BILL**

"I was a machinist before I

thought I could get rich in the poultry

game, and it's bad enough to

worry about the \$70,000 feed bill I

must dig up every year, without

worrying about little chickens. I'd

rather count mine after someone

else hatches 'em.

"Advice to other poultrymen? Say,

advice darn near ruined me. Some

figures, then? Gotcha pencil and

paper ready?"

Here they are:

Four men and two women kept

busy gathering eggs in 200-egg

buckets and packing them for mar-

ket. Sixty-six acres in hens—ap-

proximately 1000 hens to an acre.

White Leghorn strain used entire-

ly. Hens are kept three years, then

sold. Each lot shows a loss of 20

per cent during the three years due

to pleurisy and loss of vitality due

to the breeding to produce hens lay-

ing 200 eggs a year.

**BIG EATERS**

Truck load of kale bought every

day, and ton of alfalfa and kale eaten

daily. Twenty sacks of wet mash

fed daily—maize, shredded

wheat tips and rolled oats, mixed by

electric machinery.

Ten sacks of onions daily fed are oc-

asionally as tonic. Many tons of

barley and wheat are fed weekly.

Over 330 chicken houses, 30 with

electric lights to make working day

longer. Over 48 poultry yards.

Three power pumps, connected to

three wells, needed to supply water.

Twenty storage houses for chicken

feed.

White Leghorn strain used entire-

ly.

self. Mail or telephone them to

**BY W. F. WINSEY**

Little Chute—Anton Vervoort, route

1, recently completed the building of

a modern house, 23 feet square, on his

farm. It is finished in Norway pine,

and the family is now enjoying its

first winter in it.

**Menasha—Joseph Harold, route 1,**

started raising alfalfa two years ago

when he sowed ten acres. Last sum-

mer with two cuttings of his field, he

harvested 43 loads of better feed than

his cattle had ever tasted before. Af-

ter the second cutting, the field fur-

nished pasture to his entire herd of

cattle throughout the fall. Mr. Harold

is so well pleased with his yield of

alfalfa that he has decided to seed

25 acres more land to alfalfa this

spring.

**Little Chute—"In ordinary years,"**

said Joseph Dreasing, route 1, to the

writer, "farmers may buy feed for

hogs and cattle if necessary and still

make a fair profit from dairying and

fattening farm animals and fowls for

the market. This year although cheese

and hogs command a fairly good price

farmers who have to buy ground corn

at \$2.50 a hundred, ground rye at

\$2.25 a hundred and bran at \$34 a ton

are in a losing game. As a usual thing,

the prices of farm products are high

when the farmer is a buyer and very

cheap when the farmer has a supply

and is a seller. The present high

prices of oats, wheat, corn and rye

are a detriment to farmers because

they came, as the usual custom is,

after the granaries and cribs of farm-

ers were empty and when price-manip-

ulators were intent on their own

profits."

**Seymour—John Platten, route 3,**

last summer improved his farmyard

by razing several old buildings, mov-

ing and raising his largest barn and

building concrete basement stables.

The basement is 36 feet by 80 feet and

is lighted from three sides. It is al-

ready equipped with a concrete floor,

steel stanchions and steel pens. Drink-

ing cups and other modern equipment

will be added in the spring. When Mr.

Platten's plans are completely worked

out, he will have one of the best barns

and basements to be found in his vic-

inity.

**BROWN SWISS COWS**

SUITED HIM BEST

Seymour—William Wendt, route 4,

found he was not getting a satisfac-

tory butterfat test from mixed grade

cows. He was positive he could get

a much higher test from Brown Swiss

cows, because by long observation,

he knew that these were easy keepers

good beef cattle and good milkers and

exceedingly attractive. As soon as he

could see his way clear two years

ago, he therefore selected purebred

Brown Swiss for a new dairy herd.

His first move in the change was

the purchase of a bull from Henry

Rechnagel, Seymour. The purchase of

a 2-year old heifer from William

Hurst Seymour soon followed. A year

later he bought two more 2-year-old

heifers from the latter named breeder.

Mr. Wendt has now seven head of

purebreds and nineteen head of grades.

As time goes on, he will gradually

cull out his poorest grade cows and

fill their places with the increase from

his purebreds.

## BRUSEWITZ FARM HAS HIGHEST COW IN TEST SOCIETY

Purebred Guernsey Makes Butterfat Record of 54 Pounds in 30 Days

A purebred Guernsey cow on the farm of A. G. Brusewitz & Sons was the best producer in Black Creek Cow Testing association for the month ending Jan. 1, 1925, according to the report just issued by Raymond A. Tulledge, official tester. She produced 1,050 pounds of milk with a 5 per cent test, amounting to 54 pounds of butterfat.

Second high cow was a grade Holstein owned by Peter Bergsbaken. Her production was 1,170 pounds of milk with a test of 4.2 per cent fat and with 49.1 pounds of butterfat. The high herd for the month was owned by Charles Wussow. The cows gave a total of 8,106 pounds of milk, average test 4.58 per cent and 372.9 pounds of butterfat.

Highest producers for the month were:

Cow	Owner	Pounds of Milk	Per Cent Fat	Pounds of Butterfat
Ed Malchowski	.....	915	4.7	43.
